Creating Theory to Practice Centers for Innovation and Employment

This project aims to meet the above-mentioned objectives by establishing "Theory to Practice" Centers (T2P) in higher education institutions in all communities in Kosovo, in cooperation with partners from local industry and international higher education and vocational institutions. The purpose of T2Ps will be to provide a forum for innovation, knowledge exchange between researchers (theory) and enterprise (practice), capacity building and the creation of new tools addressing all key-stakeholders relevant for local development and employment.
