| Course aims | Learning outcomes |
|---|---|
| <p>The main aim of the course is to provide students with general knowledge of measures taken to prevent criminality.</p> <p>Undoubtedly, knowledge and scientific developments in the field of criminal policy play a key role in undertaking theoretical and practical measures in preventing and combating criminality. Criminality as a negative and harmful phenomenon is present in every state, so it is incumbent upon states to draft criminal policies for the prevention of criminality.</p> | <p>Upon the completion of the course students will be able to:</p> <ul style="list-style-type: none"> - Understand the purpose of criminal policy and its role in preventing and fighting criminality - Understand the forms of social response to criminality in various economic and social formations - Understand the legal basis of criminal policy - Understand the role and effect of criminal legislation in preventing criminality - Understand the role of the judiciary in preventing criminality |
