Qëllimi studimor i lëndës	Përfitimet e studentit
The purpose of the course is to explain how English is pronounced in the accent normally chosen as the standard for people learning the English spoken in England. Apart from this, the course presents information in the context of a general theory about speech sounds and how they are used in language, which is known as Phonetics and Phonology.	Students would acquire a deeper understanding on the principles regulating the use of sounds in the spoken language.
