for Research & Innovation

University "Ukshin Hoti" becomes part of the "Horizon 2020" program in the project SMART4ALL

Horizon 2020 is the largest European research and innovation program funded by the European Commission, which aims to provide Europe with global competition. UPz is a partner in the project SMART4ALL which has received the highest score in the evaluation.

SMART4ALL: Self-sustained customized cyberphysical system experiments for capacity building among European stakeholders, a four year 8,000,000 Euros flagship EU project under the call DT-ICT-01-2019: Smart Anything Everywhere for connecting Digital Innovation Hubs across Europe.

The SMART4ALL consortium consists of 25 European partners with interdisciplinary skills and know-how from universities, research institutes, investors, networking organizations, SMEs, Innovation Hubs and NGOs, part of this consortium is already the University of Prizren "Ukshin Hoti".

The project will build capacity among European stakeholders through the development of self-sustaining experiments, between countries transferring knowledge and technology between academia and industry. SMART4ALL aims CLEC (Customized low energy computing) CPS (cyber-physical systems) / IOT (Internet of Things) and combines a series of unique features that bring together cultures, policies, geographic areas and application areas in a common vision.

The application domains targeted are digitized transportation, digitized agriculture, digitized environment and digitized anything.
