

STUDYING IN PRIZREN

Life on campus is quite active with sports, recreation and entertainment events organized by the student council. You can study with colleagues at the City Library located in the center of Prizren, or along the river "Lumbardhi".

Next to the university campus is the city's largest park. In Prizren there is also the most important part of the city, "Shadervani" which is always buzzing with various activities.

Not only to mention as one of the most valuable assets of the University of Prizren, but without a doubt Prizren is the most beautiful and most important city not only in Kosovo, but in all Albanian lands.

Prizren Gallery, shops and restaurants offer comfort and are fun..

"UKSHIN HOTI" UNIVERSITY- PRIZREN

**THE FACULTY OF LIFE AND
ENVIRONMENTAL SCIENCES**

Study programs:

- Agribusiness**
- Forest Sciences and Environment**

CARRIER PERSPECTIVE

Upon completion of their studies, graduates of the Faculty of Life Sciences and Environment will have the necessary qualifications to work in many fields such as;

- Management of agro-processing enterprises.
- Management of enterprises dealing with trading of agro inputs;
- Management of market-oriented agricultural and livestock farms;
- In banks and financial institutions;
- Local and central public institutions;
- Local and international organizations;
- Public Forest Service Enterprises;
- Wildlife Management Organizations;
- Government and non-governmental organizations dealing with nature and environmental protection;

Studies in these two programs are at the BSc level (3 years), organized in 6 semesters by 30 ECTS, each of them, a total of 180 ECTS

SCIENTIFIC KNOWLEDGE AND PRACTICAL EXPERTISE

What would research be without practical experience? What would practical experience be without research knowledge? It is our two basic programs that make the connection between the theoretical and the practical part. The “learning by seeing and practicing” method prepares students and equips them for the job market.

The new faculty building offers all the conditions for doing research, where they are equipped with modern laboratories adapted for the two programs of the Faculty.

“Ukshin Hoti” University in Prizren has an agreement for cooperation with the Ministry of Agriculture, Forestry and Rural Development. The participants in this agreement are the students of the Faculty of Life Sciences and Environment of UPZ, who will have the opportunity to complete the internship within their studies.

“Ukshin Hoti” University, in Prizren, is part of the Erasmus + program, which offers many opportunities for the exchange of staff and students with many EU member states.

The Public University of Prizren "Ukshin Hoti", in Prizren (UPZ) started working in 2010. The headquarters of the University is in Prizren, one of the oldest cities in Kosovo. UPZ is the second public university in Kosovo. In 2010 the number of students was close to 1,700, while now, the number of students is about 17,000.

The basic mission of the Faculty of Life Sciences and Environment within UPZ, is to provide levels of university education and scientific research related to the Sciences of Living Nature, Environment and Agribusiness.

The Faculty of Life Sciences and Environment offers study in;

- Academic Programs:
- Agribusiness (Bachelor)
 - Forest Science and Environment (Bachelor)

The new Agribusiness study programs as well as Forest Sciences and Environment are unique in Kosovo and can only be studied at UPZ.

These programs will have a direct and indirect impact on the continuous economic growth and development of the Prizren region and the country in general.
